Other SOP may also apply to this task, select other SOP as appropriate. Site and task may change required PPE.

PERSONAL PROTECTIVE EQUIPMENT

You must wear this personal protective equipment when doing this task

OTHER SIGNAGE

POTENTIAL HAZARDS ASSOCIATED WITH RISKS

Recurring Hazards	Construction work
Silica	Environment
Damage to Property	Outdoor work
Public areas	Hazardous Chemicals
Heights	Utilities & Services
Electrical	Plant & equipment
Tools	

Training Required:

- Construction Industry General Induction
- ✓ Site Induction
- ✓ Task induction
- ✓ Silica awareness
- ✓ Manual Handling

Licence or VOC Required: No

Pre-Operational Safety Checks:

- ✓ Complete site-specific risk assessment
- ✓ Workers trained & Competent
- ✓ Complete visual Machine pre-start checklist
- ✓ Be familiar with plant operations and controls
- ✓ Machines serviced to specification
- ✓ Machine guarding in place
- ✓ Current electrical test & tag

- Check all electrical leads for damage
- Electrical leads positioned to prevent damage
- ✓ Use electrical earth leakage unit
- Services isolated
- ✓ Public is protected
- ✓ Property is protected
- Control measures have been implemented
- ✓ It is safe to proceed

Consultation

- SWMS has been reviewed
- ✓ Site induction completed
- ✓ Toolbox talk held
- Discussed with other PCBU
- ✓ Notify neighbours
- Potential emergencies considered

Tools & equipment required

- √ 200-micron plastic bags
- ✓ Glue
- Spray bottle
- ✓ Tape
- ✓ Appropriate hand tools

Operating Procedures / Methodology:

Planning & Preparation

- ✓ Obtain Manufacturer's instructions
- ✓ Conduct a task specific Risk Assessment
- ✓ Complete SWMS
- Ensure adequate lighting
- ✓ Location of Silica is identified
- ✓ Commencement of work authorised

Doing

- ✓ Use in accordance with Manufacturer's Instructions
- ✓ All nominated control measures are used
- ✓ Follow SWMS, SOP and Risk Assessment
- ✓ Ensure clear pathway to exit
- ✓ Put on PPE including P2 mask
- Enter the work area
- ✓ Minimize creation of dust

Ending Operations / Housekeeping:

- ✓ Allow plant to cool before maintenance
- ✓ Report plant defects found during use
- ✓ Conduct Basic clean of machine
- Return all tools and equipment
- Waste is recycled or disposed of
- Decontamination of work area
- Decontamination of workers
- ✓ Decontamination of tools and equipment
- ✓ Ensure dust does not escape work area
- All waste is to be bagged or wrapped
- ✓ Pack away all equipment
- Remove enclosures
- Remove exclusion zones

- Check site is clean
- ✓ Remove fences and signage
- ✓ Handover site to client
- ✓ Store non-disposable PPE to prevent damage
- ✓ Report to your Supervisor

Monitor & Review Process

- ✓ If unsafe STOP, review get approval
- Supervisor to check all activities
- Task MUST be completed as per SOP
- ✓ Report to your Supervisor if unsure

DO NOT!

- Use if plant is faulty. Tag-out and report fault to your Supervisor
- Alter this SOP without Management approval

Applicable Legislation / Standards:

✓ WH&S Act & Regulations

Codes of Practice -

First aid in the workplace

Work health and safety consultation, co-operation and co-ordination

Managing noise and preventing hearing loss at work

How to manage work health and safety risks

Hazardous manual tasks

Managing the work environment and facilities

Manual tasks involving the handling of people

Managing the risk of falls at workplaces

Safe work procedure approved by:

Refer to Company Implementation Folder for signed documents

Worker sign-off

Refer to Worker's induction file for signed documents
